

Education and Certifications

M.S., User Experience Design
Kent State University

B.F.A., Interdisciplinary Arts
Youngstown State University

Scrum Master Certified (SMC) - valid through 4/2027

Microsoft Certified
Azure AI Fundamentals
Azure Fundamentals

Skills

Team Management & Mentorship · Design Systems Architecture · Angular · TypeScript · StencilJS · React · CSS/SCSS · Figma · Storybook · CI/CD · AI-Assisted UX Workflows · Agile/Scrum

Summary

I am a UX engineering leader at the intersection of design systems, front-end architecture, and AI-assisted product development. I scale enterprise experience ecosystems across automotive, real estate, and supply chain SaaS - building design systems, token-driven UI architecture, and dev pipelines integrated with AI workflows, backed by deep Angular/TypeScript expertise and leadership of distributed engineering teams.

Experience

- ★ **UX Strategy & Platform Experience Manager** | *Informativ* Jan 2026 -- July 2026 · Frisco, TX
 - Own UX vision and platform experience across Informativ's product portfolio, unifying multiple auto fintech products into one cohesive platform.
 - Established the design system as core product infrastructure, driving consistency, speed, and quality across teams.
 - Found logic issue in AI assistant before release to production that would've caused audit issues down the road.
- ★ **NextGen UX Engineering Manager, Platform** | *TransImpact* Mar 2025 -- Jan 2026 · Independence, OH
 - Ran stand-ups, sprint planning, and releases for a global team.
 - Led a distributed team of 12 developers building a cross-product design system with StencilJS and custom web components compatible with React and Angular.
 - Maintained Angular front-end and NestJS middleware repos, bridging a modern component UI to a legacy .NET backend.

▲ Promoted ▲
- ★ **Software Development Manager** | *Avercast at TransImpact* Apr 2024 -- Mar 2025
 - Drove a major UI overhaul grounded in accessibility and usability
 - Led a team of 7 developers on the Demand Planning squad (Spotify model), improving forecasting UI accuracy and usability.
 - Mentored engineers on Angular, web components, and TypeScript best practices
- ★ **Senior Software Engineer IV, UI/UX - Design Systems & Front End** | *MRI Software* Jun 2021 -- Apr 2024 · Solon, OH
 - Built a Stencil-based cross-framework component library used across React and Angular applications.
 - Directed task delegation, QA, and adoption for the company Design System; led onboarding to cut ramp-up time.
 - Designed UIs in Figma for housing applicant screening and a custom API development IDE.
- ★ **Senior Front End Developer** | *Matco Tools* Jul 2017 -- Jun 2021 · Stow, OH
 - Delivered UI for desktop and mobile diagnostic scan tools (Angular, TypeScript) and mobile distributor business software.
 - Created high-fidelity mockups/prototypes (Adobe XD, Balsamiq) and led modernization of legacy interfaces.
- ★ **Personal Project** | *Dolly Pocket - An AI personal assistant built with Ollama + React Native housed in a cyberdeck built inside an old Polly Pocket*
